NEW CEO BRIEFING · SOURCE LIST

Every claim, sourced

The 24 sources behind the briefing on Christian Westerlind Wigstrom, numbered as in the briefing. Each entry lists the statements it supports and the exact passage that supports them. All links were opened on 30 October 2026.

How to read this list. Numbers match the superscript links in the briefing PDF. “Primary” means the organisation's own publication (Redbelly, Monoova, Tokeniser, the RBA, the Federal Register of Legislation, industry bodies). “Secondary” means independent media or a published biography. Company figures marked “self-reported” have not been independently audited. Passages are quoted exactly as published; spelling follows the original.

1 Redbelly's new CEO is a payments pioneer betting on regulated tokenisation

Redbelly Network (official blog) · 16 September 2026 PRIMARY · REDBELLY

https://redbelly.network/blog/redbelly-new-CEO-is-a-payments-pioneer-betting-on-regulated-tokenisation

STATEMENT IN THE BRIEFING	SUPPORTING PASSAGE (VERBATIM)
Redbelly appointed Christian Westerlind Wigstrom as Chief Executive Officer, to start in November 2026.	“announced the appointment of Christian Westerlind Wigstrom as Chief Executive Officer to start November 2026”
He joins to lead Redbelly's push into regulated tokenisation.	“Christian joins to lead the company's push into regulated tokenisation”
Redbelly says the idea behind Monoova was that payments infrastructure should disappear into the background, and that he will apply the same thesis to regulated capital-markets infrastructure.	“payments infrastructure must be good enough to disappear into the background”
Redbelly names Wise and Carsales.com.au among the platforms Monoova served.	“serving major platforms such as Wise and Carsales.com.au”
Redbelly says Monoova issued almost a quarter of the country's PayIDs.	“issued almost a quarter of the country's PayIDs”
Redbelly says the Digital Assets Framework Act brings digital-asset and tokenised-custody platforms into the same licensing regime as brokers and fund managers.	“bringing digital-asset platforms and tokenised-custody platforms into the same licensing regime as brokers and fund managers”
Redbelly describes itself as the only public Layer 1 carrying real central bank claims on public infrastructure during Project Acacia.	“Redbelly, by contrast, was the only public Layer 1 carrying real central bank claims on public infrastructure”
Quote: "One of Redbelly's many strengths is its regulatory credibility … starts being existential."	“One of Redbelly's many strengths is its regulatory credibility. In payments, I learnt that success belonged to the company that saw compliance as a product edge rather than a tick box. The same thing applies to capital-markets infrastructure. As new regulation takes effect, this insight stops being philosophical and starts being existential.”
Quote: "The next era of finance won't be won by the loudest chain … the chain that institutions can actually use."	“The next era of finance won't be won by the loudest chain”
Quote (continued): "It'll be won by the chain that institutions can actually use."	“It'll be won by the chain that institutions can actually use”
Redbelly positions itself as "the settlement layer for regulated markets".	“it is the settlement layer for regulated markets, not just another chain chasing attention”
Redbelly's tokenisation strategy is delivered through Tokeniser, which brings fund and equity administration on-chain for regulated markets.	“Its tokenisation strategy, delivered through Tokeniser, brings fund and equity administration on-chain for regulated markets”
Redbelly says Monoova operated "behind the scenes" of several leading brands.	“by acting “behind the scenes” of several leading, innovative brands”
Redbelly describes him as "not a crypto tourist".	“Christian is not a crypto tourist”
